1 Question No 2.11

Which of the following pairs of linear equations has a unique solution,no solution or infinitely many solutions ?

1)

$$\begin{pmatrix}1 & -3\end{pmatrix}\mathbf{x} = 3 \\ \begin{pmatrix}3 & -9\end{pmatrix}\mathbf{x} = 2 \tag{1.0.1}$$

2)

$$\begin{pmatrix}2 & 1\end{pmatrix}\mathbf{x} = 5 \\ \begin{pmatrix}3 & 2\end{pmatrix}\mathbf{x} = 8 \tag{1.0.2}$$

2 SOLUTION

1)

$$\begin{pmatrix}1 & -3\end{pmatrix}\mathbf{x} = 3 \\ \begin{pmatrix}3 & -9\end{pmatrix}\mathbf{x} = 2 \tag{2.0.1}$$

The above equations can be expressed as the matrix equation

$$\begin{pmatrix}1 & -3\\3 & -9\end{pmatrix}\mathbf{x} = \begin{pmatrix}3\\2\end{pmatrix} \tag{2.0.2}$$

The augmented matrix for the above equation is row reduced as follows

$$\begin{pmatrix}1 & -3 & 3\\3 & -9 & 2\end{pmatrix} \xleftrightarrow{R_2 \leftarrow R_2 - 3R_1} \begin{pmatrix}1 & -3 & 3\\0 & 0 & -7\end{pmatrix} \tag{2.0.3}$$

$\therefore$ Given lines (1.0.1) have no solutions so we can say they are parallel.

Plot of (1.0.1) -

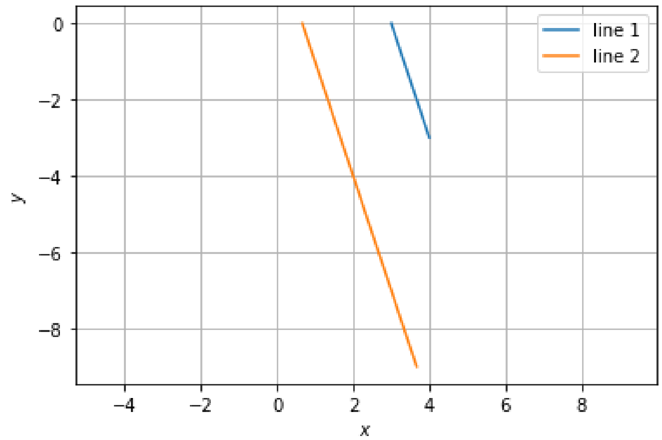

Fig. 2.1: PARALLEL LINES.

2)

$$\begin{pmatrix}2 & 1\end{pmatrix}\mathbf{x} = 5 \\ \begin{pmatrix}3 & 2\end{pmatrix}\mathbf{x} = 8 \tag{2.0.4}$$

The above equations can be expressed as the matrix equation

$$\begin{pmatrix}2 & 1\\3 & 2\end{pmatrix}\mathbf{x} = \begin{pmatrix}5\\8\end{pmatrix} \tag{2.0.5}$$

The augmented matrix for the above equation is row reduced as follows

$$\begin{pmatrix}2 & 1 & 5\\3 & 2 & 8\end{pmatrix} \xleftrightarrow{R_2 \leftarrow 2R_2 - 3R_1} \begin{pmatrix}2 & 1 & 5\\0 & 1 & 1\end{pmatrix} \tag{2.0.6}$$

$$\begin{pmatrix}2 & 1 & 5\\0 & 1 & 1\end{pmatrix} \xleftrightarrow{R_1 \leftarrow R_1 - R_2} \begin{pmatrix}2 & 0 & 4\\0 & 1 & 1\end{pmatrix} \tag{2.0.7}$$

$$\begin{pmatrix}2 & 0 & 4\\0 & 1 & 1\end{pmatrix} \xleftrightarrow{R_1 \leftarrow \frac{R_1}{2}} \begin{pmatrix}1 & 0 & 2\\0 & 1 & 1\end{pmatrix} \tag{2.0.8}$$

$$\implies \mathbf{x} = \begin{pmatrix}2\\1\end{pmatrix} \tag{2.0.9}$$

is a solution of (1.0.2)
$\therefore$(1.0.2) has a unique solution so we can say they are interest.

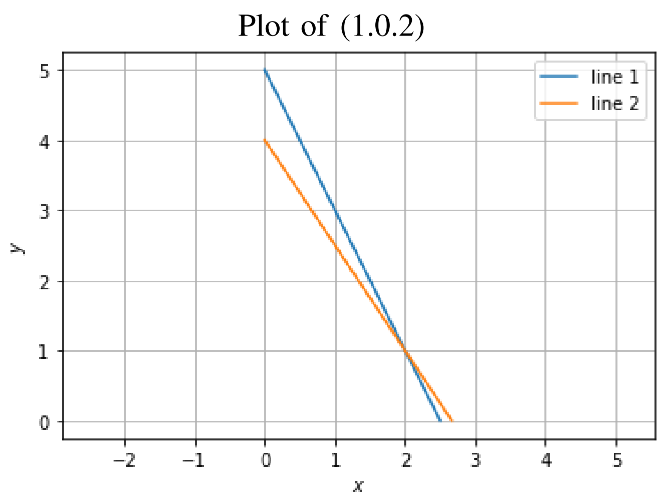

Fig. 2.2: INTERSECTING LINES.
